Friday	27

# Monday

## **Test Area 1**

Monday morning before lunch will be used for setting up equipment and checking that all systems are operational. After lunch the testing will start with high power jamming with different waveforms, CW, Sweep, PRN at different GNSS bands.

## **Test Area 2**

No activity before lunch. Testing of low-power handheld jammers after lunch.

## **Test Area 3**

No activity before lunch. Testing of mobile spoofing after lunch.

# Tuesday

## Test Area 1

Tuesday will be used for jamming and meaconing and unintentional RFI test. During the evening there will be a high power jamming running until 22:00.

## Test Area 2

Test of multiple low-power handheld jammers in circular configuration. Relevant for mobile testing in car, drones and CRPA antennas.

## Test Area 3

Testing of low-power handheld jammers inside and outside vehicles.

# Wednesday

## **Test Area 1**

Wednesday will be used for position and EGNOS spoofing. During the evening there will be a long period with drifting position and time spoofing until 22:00.

## **Test Area 2**

Test of stationary coherent spoofing with circle of jammers. Relevant for mobile testing in car, drones and CRPA antennas.

## **Test Area 3**

Testing of low-power handheld jammers inside and outside vehicles.

# Thursday

## **Test Area 1**

Thursday will be used for time spoofing.

## **Test Area 2**

Test of multiple low-power handheld jammers, and Jammer onbaord a drone. Relevant for mobile testing in car, drones and CRPA antennas.

## **Test Area 3**

Testing of mobile spoofing. Repetitions of tests from Monday except the last test of the day.

# Friday

## **Test Area 1**

Friday will be used for time spoofing and repetitions of previous tests. Time after lunch will be used for tearing down and packing up equipment.

## **Test Area 2**

There will be no testing on this site on Friday.

## **Test Area 3**

There will be no testing on this site on Friday.
